

## Booking

### Can I specify where I would like my room located (preferred floor, etc.)?

We will do our best to accommodate special room requests. Please feel free to state your request during your reservation, [please contact us anytime](#)

We do hope and encourage our Guests to have a direct relationship with us with no intermediary while making their reservation: this will allow us to manage in full your reservation, price and room-type offered in order to satisfy your needs and expectations at best.

All of our 18 rooms are provided with the same amenities although our property is a medieval building and by law cannot be altered (to protect the historical integrity of the structure). The difference between rooms is referring mostly to size.

Please use our direct secure channel for any reservation enquiry:
