

Hotel facilities

Is there a laundromat close by or does your hotel have any laundry services?

The laundry service is available during your stay by following options:

A) managed by the hotel

B) managed by your own

A) We provide a laundry service in 24hours; **we collect your clothes in the evening at 8pm** and deliver day after at the same time washed & ironed. Dry cleaning is also available. Prices for each different piece are shown in the information brochure in your room.

B) It is also possible for you to drop/collect your clothes **by your own** to the laundry in town located within the city walls. It is possible for you to choose how your clothes to be washed: ironed or dried only (in this case price is calculated by weight)

There are also two different **laundromat /laundrettes** available 24/24 in San Gimignano by walking distance 5 minutes from the hotel.
