

# Skyline and Hidden Sights

**EUR 35,00 per person - Min. 2 people**

A photographic walking tour and short drive, by shooting the most memorable pictures. The skyline of San Gimignano, rolling hills of olive groves and rows of vines, green forests, fields of sunflowers, villas, castles, churches, are subjects of rare beauty. With our local photographers, we have studied unique landscape compositions, a few significant points, where visual cones enhance the balance between history and nature with the perfect light exposure. We have selected different locations at dawn and sunset, always considering sun and moon position, the colours changing by season. We propose an itinerary within the walls when the crowds of daily tourists have left and the San Gimignano appears in its more charming dress.

## **INFORMATION**

**Everyday including taxi transfer and e-book with all special locations**

**Taxi departure time: 30/40 min. before dawn and 30/40 min. before sunset**
