

Taste of Tuscany

EUR 18,00 Per Person - minimum 2 persons

San Gimignano

In every single Tuscan you can find a food expert! Food in Tuscany is our preferred topic, more than soccer or weather!! Good food and good wine are base of a good living and well being: the Mediterranean diet will keep you healthy, will help you to lose weight, and live longer. A good part of the local economy is rural and revolves around the concept of organic farming, biodynamic agriculture, short chain, traceability and authenticity of local products. Our expert local guide will introduce you to the DOP product of San Gimignano like the saffron, to the DOP and IGP products of Tuscany like extra-virgin olive oil, salami and cheese and to the DOCG, DOC and IGT wines. An itinerary that brings joy to the palate and throat, a time dedicated to tasting flavors from those producers proud of their work and passion, traditional heritage and innovations.
