

## Panoramic walk and Vernaccia wine tasting

This wine tour allows you to fully enjoy the magnificent views of San Gimignano and the surrounding countryside. We start from the city center and have an easy walk of an hour along a dirt road descending to the valley in front of the towered city skyline amongst olive groves and vineyards of Sangiovese and Vernaccia.

At the winery we first meet the owner who will lead the whole visit and tasting time and enjoy a convivial Tuscan lunch (outdoor with sun shine).

We likely join other tasters, and start by sipping Vernaccia di San Gimignano with some olives and crackers. We go on by soaking some good Chianti with a delicious Pasta, and the full-body Riserva with a dish of ham, salami and cheese, ending with Vin Santo and Cantucci (special traditional cookies).

The owner will tell you about his passion as a winemaker, providing some useful details and tips to recognize important characteristics of the wine you are drinking, and take you out to visit the vineyards and the cellars.

On the way back you should go up to the Rocca Park and stop at the Wine Museum, home of the Consortium of the Vernaccia. Here you find the entire production of wine from local wineries and a sommelier on hand for other tastings if you wish.
