
ONE DAY SELF-GUIDED VESPA TOURS

The ideal tours to see hardly known Tuscan nooks! We propose tours around the most authentic and genuine side of Tuscany, to show not only monuments and works of art, but people, traditions, colors and flavors.

Vespa riding let the traveler know wide enough areas, although so slowly that he can enjoy the landscapes, without hurry, in search of the treasures of the place; it allows breaks to watch the nature around or to take a photo, to visit an ancient church on the top of a hill, or to taste a glass of local wine...

We have chosen the most scenic and less travelled roads, the ones which are not indicated in a map or a navigator but where only a native can lead a guest.
